CVO Parking Policies and Procedures For Large Groups

We use a drop off system to expedite arrival and camp set up.

Campers may drive to the upper parking lot and drop off their gear and passengers (bring a tarp to put down so that everything can be offloaded quickly) the car then needs to immediately be moved down the road to the first available place and park.

Three cars may enter camp at a time, and when all three cars leave the upper parking lot, three more vehicles may enter. Our road into camp is a single lane and you will not be able to pass.

After drop off please tandem park in the lot located at the entrance to camp, all cars must be parked facing the road. When that lot is full please park on the highway perpendicular to the asphalt. Be very mindful of your catalytic converters when maneuvering on the high grass. Do NOT park on the grass or let your engine idle over the grass. (Per the Forest service regulations we are only allowed to park on the gravel lot and the asphalt highway.)

We do not allow any cars to stop on the roads inside camp, (per the Forest Service). We also do not allow cars to drive up the road to the water tank, or on the field (especially due to the higher than normal water table). EVERY vehicle MUST have a CVO parking pass on the dash with the name and phone number filled in. If you do not have a parking pass, you could be towed by the forest service.

You are NOT allowed to park in the lot next to the forest service station, or anywhere along the asphalt road in and out of camp.

Please follow any directions the CVO Camp Masters give you.

The small stream we have running alongside the road in camp has been established by the Forest Service and CVO to avoid flooding campsites and severely eroding the roadway. It is not to be disturbed for any reason. If you are experiencing a problem with it please let your camp master know.

RV Parking is allowed on a case to case basis. Location will be determined based on specific unit needs and availability.

Thank you for your cooperation, and we hope your visit to our camp is a positive experience.
